EDUCATION

Pragati Engineering College	2022 – 2026
<i>Bachelor of Technology – Computer Science and Engineering (Data Science)</i>	CGPA – 9.21/10
Sri Chaitanya Junior College	2020 – 2022
<i>Intermediate – MPC</i>	Marks Scored – 843 / 1000
Sri Chaitanya Techno School	2019 – 2020
<i>S.S.C</i>	CGPA – 9.5 / 10

EXPERIENCE

Turtil – The AI Company	Jun 2025 – Jul 2025
<i>AI Developer Intern</i>	Remote
- Developed a containerized Smart Quiz Generator microservice using FastAPI, TS-small, and TF-IDF, generating 50+ domain-specific quiz questions per request across 5+ technical domains. - Implemented a hybrid AI pipeline (TF-IDF retrieval + TS-small generation) improving question diversity and relevance by ~30%. - Designed template-based and retrieval-based question generation logic, enabling 100% offline execution and reducing dependency on external APIs.	
Society for Data Science	Apr 2024 – Oct 2024
<i>Research Intern</i>	Remote
- Integrated Google Cloud Vision API for OCR and Gemini 1.5 Pro to analyze and score 1000+ student responses. - Built NLP preprocessing pipelines for handwritten text datasets, implementing noise removal, lemmatization, and keyword extraction to improve text analysis accuracy. - Evaluated 500+ subjective answers using Plan-and-Solve prompting and LLM-as-a-Judge frameworks, improving grading consistency and reducing evaluation bias.	

PROJECTS

Shopping Trends Analysis / <i>Python, Pandas, Matplotlib, Seaborn</i>	Oct 2024 – Jan 2025
- Analyzed 10,000+ customer records with 8+ behavioral features including age, gender, payment method, segmentation, and internet usage. - Performed data wrangling on 10K+ records, handling missing values, encoding 5+ categorical variables, and generating statistical summaries for analysis.	
Spam Email Detection / <i>Python, Scikit-learn, Pandas, TfidfVectorizer</i>	Feb 2024 – Mar 2024
- Developed a spam email classification model trained on 5,000+ email samples achieving ~94% prediction accuracy. - Extracted 3,000+ TF-IDF features from email text to convert unstructured data into numerical representations. - Trained and compared multiple ML models (Naive Bayes, Logistic Regression, SVM) and selected the best model using precision, recall, and F1-score evaluation.	

PAPER PUBLICATION

IEEE Conference Paper	Dec 2024
"Revolutionizing the Future of Automated Subjective Answer Sheet Evaluation System using Machine Learning and LLMs" at IEEE Pune Section International Conference (PuneCon 2024).	

TECHNICAL SKILLS

Languages: Java, Python, C, SQL, R

AI / ML: Machine Learning, NLP, TF-IDF, Scikit-learn, TS-small

Data Science: Pandas, NumPy, Data Cleaning, Feature Engineering, Data Visualization

Tools: Git, GitHub, Jupyter Notebook, Power BI, Tableau

Cloud / APIs: Google Cloud Vision API, Gemini 1.5 Pro

CERTIFICATIONS

- Certified Revature Pre-Training – Python SQL Data Program
- NPTEL – Python for Data Science (Elite), Data Mining (Elite), Data Structures and Algorithms using Python (Elite)
- ServiceNow Certified System Administrator (CSA), Certified Application Developer (CAD)
- Academic Merit Excellence – I, I, II, III, IV, V – I semesters
